EXEMPT: 2019-120 Trainee Factors That Impact Attitudes Toward Exposure Therapy With Youth

Dear Ms. La Prade,

You have requested EXEMPT review of the above-entitled protocol by the PAU IRB. The study qualifies to be reviewed under Exempt 2(i) category because study will administer an anonymous Qualtrics survey on mental health graduate students. No sensitive and identifying information linking to participants will be collected. Therefore, this study qualifies for exemption under 45 CFR 46.104(d):

Category 2: Research that only includes interactions involving educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures, or observation of public behavior (including visual or auditory recording)

You have provided necessary documentation including certificates of completion of human subjects research training. The PAU IRB has reviewed and determined this protocol is EXEMPT.

Exempt Date: January 20, 2020

Modifications: Any changes to the protocol must be approved, in advance, by the IRB prior to being implemented.

Please Note: The IRB must be kept apprised of any and all changes that may have an impact on the IRB review mechanism needed. Please review the PAU Human Subjects Research Protection Program Standard Operating Procedures prior to implementing any changes and consult with the HRPP Administrator as needed to determine whether your change requires approval in advance. New procedures that may impact the risk-to-benefit ratio cannot be initiated until approval has been given.

Please print and retain this letter for your files.

Sincerely,

Amanda M. Fanniff, PhD
Associate Professor and Chair, PAU IRB
